PROFESSIONAL SUMMARY

Full Stack Developer experienced in the analysis and development of web and e-learning applications, and in teaching programming. Key project: the platform for the Construí tu Futuro (Build Your Future) program of the Future Skills Agency, with over 40,000 registered users. Currently developing telemetry and data analysis software for Extended Reality (AR, VR and MR) devices and training in game development with Unity.

TECHNICAL SKILLS

Languages: Python, TypeScript, JavaScript, C#, SQL, HTML/CSS

Frameworks & Libraries: Django, Django REST Framework, Flask, Celery, Angular, Bootstrap, Tailwind CSS, Unity

Databases: MySQL, MariaDB, MongoDB, Redis

DevOps & Cloud: Docker, Git, GitHub, GitLab, Linux server deployment, AWS (fundamentals)

Data & AI: Pandas, Tableau, Machine Learning (scikit-learn, TensorFlow), NLP (NLTK)

E-learning: Moodle (integrations), SCORM packages

Extended Reality: Meta Quest development, simulation telemetry

WORK EXPERIENCE

Future Skills Agency – Ministry of Education, City of Buenos Aires

Developer – Simulation Center (Jul 2026 – Oct 2026)

- Member of the Augmented Reality Lab team (software for AR, VR and MR).
- Analysis and full stack development of the web app **Telemetry and Analysis** (pending release): collects data from Unity simulations for Meta Quest and generates reports and dashboards.
- Development of the Unity package (C#) that connects the simulations to Telemetry and Analysis.

Full Stack Developer – Distance Learning Department (Sep 2024 – Oct 2026)

- Analysis and full stack development of the **Employability Skills Test** for the Construí tu Futuro (CTF) program, launched in Mar 2025.
- Evolution of the Test into a comprehensive platform (Mar 2026), now with over **40,000 registered users**. Included:
  - Frontend redesign and asynchronous tasks (email delivery, among others) with Celery and Redis.
  - **Moodle integration:** validates participants when the Test is embedded in a course and registers them if needed.
  - **Encuentros (Events):** calendar of CTF workshops and courses, with online registration for the public.
  - **CTF Statistics:** strategic and operational dashboards on Test and Events activity.
  - **Platform Administration** (back office): event management, data downloads, user manual and a behavioral engagement segmentation tool for external campaigns.
- Analysis and full stack development of the Virtual Assistant (May 2025, pending release): a Moodle help chatbot for teachers.
- Static web apps embedded in Moodle, in some cases through custom SCORM packages.
- Technical support for the Agency's various programs.

Instructor, Introductory Python and Python Full Stack Courses – Codo a Codo Program (Aug 2022 – Aug 2024)

- Taught live online classes to cohorts of 40 to 80 students.
- Graded assessments and created course content.

Coderhouse S.R.L.
Python Course Tutor (Apr 2022 – Jan 2023)

- Supported students in online classes (synchronous and asynchronous).
- Graded assessments and created supplementary course materials.

Clínica Privada de Ojos Santa Lucía S.A.
IT Support Specialist and Billing & Contracts Analyst (May 2021 – May 2022)

- Tier 2 IT support: hosting and email configuration, computer assembly and repair.
- Billed medical services (Tango Gestión) and managed provider agreements and supplies.

O.S.S.E.G. – Obra Social del Seguro (health insurance fund)
Contracts Analyst / Medical Claims Processor (Apr 2011 – May 2021)

- Managed provider onboarding and analyzed medical claims (AS400 and SAP systems).

EDUCATION

- Higher Technical Degree in Software Development – IFTS No. 29, Buenos Aires (Mar 2026 – in progress)
- Programmer Analyst – Universidad Abierta Interamericana (Aug 2024 – Nov 2025, 8 of 20 courses completed)
- University Diploma in Databases – UTN FRBA e-Learning Center (Nov 2024)
- Higher Technical Degree in Data Science and AI – ISTEA (Mar 2023 – Dec 2023, 10 of 20 courses completed)
- University Diploma in Django Framework – UTN FRBA e-Learning Center (Mar 2023)

IT TRAINING AND COURSES

- University Expert in Video Game Development with Unity – UTN FRBA e-Learning Center (Jul 2026, in progress)
- Machine Learning Specialization – DeepLearning.AI & Stanford University (Mar 2024)
- AWS Certified Cloud Practitioner Training – Udemy (Sep 2023)
- Data Governance – IALAB UBA, multidisciplinary program in data, programming and AI, 120 hours (Oct 2022)
- React JS – Educación IT (Mar 2022)
- QA Tester – Educación IT (Dec 2021)
- Introduction to Networking – Educación IT (Aug 2021)
- Python Full Stack Developer – Educación IT (Jul 2021)

OTHER COURSES

- University Diploma in Educational Management, Specialization in AI and Data Analysis – UTN FRBA e-Learning Center (Nov 2025)
- Personal Data Protection Expert – Universidad Siglo 21 & Buenos Aires City Gov., scholarship, 80 hrs (Feb 2025)
- Agile and Lean Project Management – Fundación Telefónica, Conecta Empleo (Mar 2021)

LANGUAGES

- Spanish: Native.
- English: Intermediate.
- French: Intermediate (secondary school level).
